***Reasons for Allowance/Examiner's Comments***

**Reasons for Allowance**

The following is an examiner's statement of reasons for allowance: none of the prior art either alone or in combination disclose or teach of the claimed combination of limitations to warrant a rejection under 35 USC 102 or 103. Specifically, none of the prior art either alone or in combination disclose or teach of the claimed method for designing a progressive addition surface of a progressive addition lens, specifically including, as the distinguishing features in combination with the other limitations, the claimed combining of the progressive and regressive surface designs to form a composite progressive surface design on at least one of the front and back surfaces of the lens with the claimed first and second areas of unwanted astigmatism as substantially aligned.

**Examiner's Comments**

For applicant's information, upon further consideration, the examiner has withdrawn the 102(d) rejection set forth in the prior office action. Specifically, the reference (Jp-2000-249992) discloses the publication date of an unexamined document on which no grant had yet taken place (the "43" date) prior to the date of application in the U.S. but does not disclose the invention was first patented or caused to be patented... (a "45" date) prior to the date of the U.S. application which is required for a 102(d) rejection. The same reasoning applies to the reference EP-1-026-533 cited by the examiner in the last office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jordan M. Schwartz whose telephone number is (571) 272-2337. The examiner can normally be reached on Monday to Friday (8:00-5:30), alternate Fridays off.
